

To The Holy Temple at Burning Man With Love From A Merry Band of Eclipsers

Please accept this gift of clarity and divine direction delivered through the “**Great American Eclipse**” **August 21, 2017 in Madras, Oregon**. A band of joyful seekers found each other in a hay field, camping in the path of totality. We set our intentions for healing, to let go of outdated beliefs, and to open to our true purpose in the world. We laughed. We cried. We fell in love with everyone we met. We left enlightened, energized, and with a new awareness of ourselves. For this sacred honor we are truly grateful. We are grateful also to the divine messenger, universal mail woman, and powerful teacher Tirza who makes this offering materially possible.

We received two messages offered in sequence on Sunday and Monday. We offer those messages now wishing that those ready will receive these gifts of insight, healing, and the profound peace that comes when we accept our spiritual calling. By offering them to the Temple, we also offer their Universal messages back out into the atmosphere to spread far and wide carried by the sacred ashes, mingling with the souls in release, energized by the magnificent power of the sun and moon.

Sunday, August 20, 2017: #21 Spiritual Service

Self doubt can be a habit that is hard to break. It can slow down your spiritual progress and the fulfillment of your life purpose. Ultimately, it won't stop you, but it can make your progress seem more challenging. It's easier to fulfill your purpose when you acknowledge your own goodness and talent and do what you love to the best of your ability. Realise that you are enough, that your work is good and that you have something of value to offer. It is time to let go of fear of failure, concern about your ability and your right to live a happy and fulfilled life of success. The Universe believes in you! You are being called to service beyond that which you have accomplished thus far.

INVOCATION: Universe, I love you. How can I serve you? I accept love's protection and love's purpose in my heart, in my life. Love empowers and protects me, gives me purpose and passion, peace and play. I believe in love. I am love, and I believe in me! May the joy of helping others give me energy and courage to continue to serve and grow spiritually. May all beings receive your love and be healed through your grace. May all those who want to serve be empowered through mercy, compassion, joy and love to do so for the greatest good. **Through my own free will, so be it.**

Monday, August 21, 2017 The Eclipse Card: 28 Master Hilarion & Archangel Raphael

Part of your divine purpose is to develop the power of your mind and use it for healing purposes. If you change your mind, you can change the world. Guidance and healing inspiration can come to you daily, helping improve your own life and the lives of others. Healing and opening the mind to new realities and possibilities are the gifts of Ascended Master Hilarion and Archangel Raphael. The mind of a lightworker needs spiritual light, information, understanding, and wisdom. The hunger for wisdom can push you to seek knowledge, and this can be a healthy impulse. However, if you love knowledge so much that you keep seeking without taking time to digest, integrate and apply what you have

learned, you may end up confused or mentally exhausted

INVOCATION: I call upon the healing grace of Master Hilarion and Archangel Raphael, who love me unconditionally. May my own mind now gain rest, clearing and refreshment. May I be assisted through unconditional love for mental healing, and the development of my mind in service to my spiritual life purpose. Please help me let go mentally, to allow for positive healing changes to happen. I ask for the grace I need to access all helpful knowledge, understanding and wisdom necessary for me to fulfill my divine purpose. May my mind become peaceful, clear and refreshed. May all beings be free from mental anguish, through the grace and unconditional love of the Divine. Through my own free will, so be it.
